

# ECHO Concussion

Starts: Wednesday 13 November, 2019 | 5:00 - 6:30pm

Diagnosis and manage your concussion patients through interactive online medical education.

This **10 part series** is geared to primary care providers in Ontario.

Each session includes a short didactic on diagnosis and management of concussion and an interactive case based discussion on real de-identified cases.

## Benefits of attending

Connects you to an inter-professional specialist team

Present your patient cases (de-identified) for recommendations and support

Videoconferencing (online)

No cost

**For more information & registration:**
