September 13, 2012

07:00-08:00 - Breakfast/Registration
View sponsorship booths

08:00-08:20 - Opening Ceremonies - Janice Spivey (ENAO President), MC Motsi Valentine

08:20-09:05 - Dr. Anil Chopra
Emergency Department Medical Director - University Health Network
PE/DVT

During this session, we will discuss the assessment and preliminary management of the ED patient suspected of having a DVT or PE. The value of risk stratification and a focused physical assessment for the subtle symptoms and signs of venous thromboembolism will be emphasized.

09:10-09:55- Joanna Laranjo
RN BScN Obstetrics- Credit Valley Hospital
Obstetrical Emergencies
During this session, we will talk about pregnancy induced hypertension and preeclampsia. We will provide you with information on what red flags to look for and how to treat them, including case studies that will help you link knowledge with real cases.

10:00-10:30 - BREAK and exhibitor viewing

10:30-11:10 - Patty Quinan
RN, MN Clinical Nurse Specialist - Dialysis Access
Humber River Hospital
Coles Notes for Emergency Nurses on Caring for Hemodialysis Patient and their Vascular Access
This session is intended to provide emergency nurses with basic information about ESRD, hemodialysis treatment and care of patient's vascular access or LIFE- LINE in an

emergency setting so that nurses can better care for hemodialysis patients.

11:15-12:05 - Judi Clarkson Mediated Solutions
Ms. Clarkson was a Registered Nurse and is a Lawyer and a Human resource expert
Taking the Mystery Out Of Legal Pitfalls in ER Practices

This talk will focus on Negligence, Informed Consent, review of some relevant case law, Policies and Procedures of Hospitals.

12:05-13:30 - Lunch/Exhibitor Viewing/ AGM

13:30-14:15 - Shirley Strachan-Jackman
RN (EC), MN, ANP, ENC (C) Emergency Department
Toronto Western Hospital
Interpreting ECGs: Practical Tips for the Practising Clinician

This talk is aimed at helping learners gain both skill and confidence using a systematic approach to ECG analysis to identify pathology such as ischemia and infarction.

14:15-14:45 - Lynne Penton
RN (EC), MN, CON (C) Humber River Regional Hospital
Oncological Emergencies

This presentation will address some of the more common oncologic emergencies, the clinical presentation and the nursing actions that may be the critical factor in the early intervention and successful outcomes for patients with cancer.

14:50-15:50 - Joy McCarron
RN-South Lake Hospital
Triage Role in the ED Streaming Process
While trying to meet MoHLTC targets, many hospitals have struggled with how to move patients through the Emergency Department as quickly and safely as possible. This presentation will focus on utilizing triage in a LEAN environment.

15:50-16:00 - Closing Remarks and reminder of night out at Medieval Times

September 14, 2012

07:00-08:00 - Breakfast/Registration-Exhibitor Viewing

08:00-08:15 - Welcome

08:15-09:00 - Linda Levesque
RN, MScN Outreach Consultant, Acute Care-Practice & Regulatory Policy Department- College of Nurses of Ontario
Accountability, Communication, and Security. Documenting to meet the standard.

This informative session will share strategies CNO uses to ensure that standards are reflective of practice realities of nurses, identify key elements of the documentation standards as it applies to emergency nursing, identify common pitfalls within the documentation process and demonstrate how documentation can articulate professional nursing practice.

09:05-09:50 - Sharon Ramagnano
RN BScN (E), MSN/MHA, ENC(C) Emergency Department - Sunnybrook Hospital.
ED/Trauma nurses...the real X-Factor
Cases from the emergency department and trauma room will be reviewed highlighting nursing actions and observations that improve the patient quality of life, reduce mortality and made the difference for the patient and family. The ED/Trauma nurse truly is and can be the real X-Factor!

09:50-10:20 - Break/Exhibitor Viewing

10:20-11:05 - Aideen Carroll
RN, B.A., BScN, M.A. Psychiatry- UHN
Emergency Psychiatry
The focus of her talk is on defining the purpose of a psychiatric emergency unit, to increase awareness of least-restraint approach and implement verbal and non-verbal de-escalation communication strategies.

11:10-11:55 - Jane Stuart-Minaret
RN BScN, MScN

Pediatric Emergencies

This interactive presentation will identify and discuss the management of common pediatric toxicological emergencies. Assessment techniques and specific therapies will be reviewed that will facilitate the care of these patients and their families in the Emergency Department.

12:00-13:00 - Lunch/Exhibitor Viewing

13:00-13:45 - Adam Isaacs
RN Emergency Management Coordinator
Credit Valley Hospital & Trillium Health Centre
Emergency Preparedness

An Emergency Department nurse turned Emergency Preparedness specialist. This talk will feature recent events both at a provincial and international level and will describe the impact these events had on the ED. It will also describe the role emergency nurses play during these situations.

13:50-14:35 - Elizabeth Taylor RN BScN & Adil Ahmed RN BScN Emergency Department
Humber River Regional Hospital
Communicating Effectively to Improve the Staff and Patient Experience

Nurses in the ED are embedded in a complex network of clinical relationships. Communicating effectively make all the difference in providing a quality nursing environment and quality patient care. During this session we will share how we were able to directly explore and examine front line nursing and patient concerns related to communication in the Emergency Department.

14:40-15:20- Ontario Brain Injury Association
NHL star whose life has been significantly altered by brain injury

Every year in Ontario there are 18,000 ED visits and or hospitalizations reported from non-traumatic brain injuries. It is estimated that approximately 1.3 million Canadians are living with an acquired brain injury and that brain injuries are more prevalent than breast cancer, spinal cord injury and HIV/AIDS. Even more staggering is the fact that more children die from a Brain Injury than all other causes combined. Learn firsthand how this, often invisible injury can forever alter the lives of individuals.

16:00-16:15 - Closing Remarks/Thank you by Janice Spivey (ENAO President)
