

ENAO MISSION

- To promote clinical excellence in Emergency Nursing for the Ontario public's benefit.
- To develop and maintain provincial standards of practice in Emergency Nursing.
- To create and promote ongoing educational programs for the Emergency Nurse.
- To promote current research regarding Emergency Nursing practice.
- To interpret the roles of the Emergency Nurse to other health science groups and to the community.
- To be an active and recognized public resource for Emergency healthcare across Ontario.

ENAO ACTIVITY

- Supports a biennial provincial Emergency Nursing conference and various continuing education courses and programs
- Publishes a biannual journal (Journal of the Emergency Nurses Association of Ontario)
- Developed the "1986 - ENAO Standards of Emergency Nursing"
- Ongoing active participation in the development of Emergency healthcare and best practice initiatives
- Monitors issues affecting Emergency Nursing practice and develops programs, services and position statements to address the needs and interests of Emergency Nurses
- Developed the 'ENAO Core Competencies for the Emergency Nurse'
- Serves as an available resource through the maintenance of a professional website (www.enaome.com)

Revised August, 2016.
